

# Glaze-Ease 601 Applicator - "Squeegee Tool" - Quick Instructions

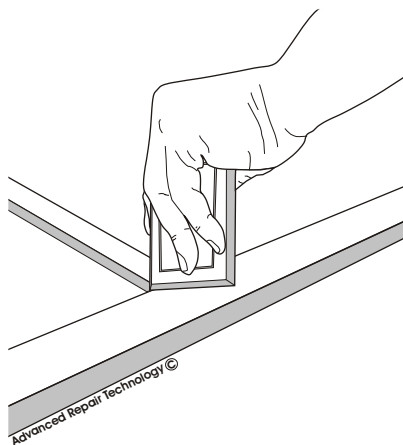

- Apply desired amount of Glaze-Ease 601 into glass rabbet.

- Smooth side down.
- Place entire edge of tool on glass.\*\*
- Angle tool to form desired bevel.
- Pull tool towards you.

\*\* Placing entire edge of tool on glass will avoid a "wind row", keep the glass clean, and reduce product waste.

- To create a sharp inside corner, lift edge and "form" the corner.
- Keep tool clean when working.
